DESCRIPTION

This media unit features a central bronze armour panel. This finish is part of our specialist finishes. Its intricate pattern is based on the design and style of Ancient Roman jewellery. The panel has been moulded and formed in resin before the metal finish is applied. FBC London media units are designed to hold an automated television lift mechanism, please contact us to discuss specific requirements and television dimensions.

FINISHES VARIATIONS

FBC London products are fabricated to the highest quality. The majority of finishes are made and finished by hand and thus some variation is to be expected. FBC London works closely with our fabricators to assure all the finishes are to our typical high standards and closely align to FBC master references. With finishes of natural material such as wood and stone inherent disparities in colour and grain pattern because of variations caused by nature, over which FBC London has no control. FBC London cannot guarantee exact colour, grain, or texture of wood or stone but will work closely with you as our client to highlight this where necessary.
